## WARM GREETINGS

### **FNNBOA Code Course - Manitoba**

Welcome to FNNBOA's (First Nation National Building Officers) Code Program Courses. There are 5 courses in the building code study program.

These include:

- BC200 – Technology and Inspection (Online) – Available now
- BC201 – Authority Having Jurisdiction (Online)
- MC202 – NBC House (Version 2020) – July 7<sup>th</sup> to 11<sup>th</sup>
- MC203 – Plumbing
- MC204 – Part 9.36 Energy Efficiency

Our first in-class session is planned for the week of July 7th to 11th, 2025, at the Sandman Hotel Winnipeg, near the airport. Breakfast & lunch will be provided.

A laptop or tablet is required; all materials will be on a USB thumb drive. Also included will be a copy of the NBC Building Code along with your copy of the Code Workbook.

*Why “digital”? It's about saving paper since there are 100's of pages to print.*

### **Before You Begin the in-class, you must complete the below online courses:**

#### **Accessing Online Learning for MC202 & BC200 Courses**

- You will receive an **email** with your **username** and **password** for the **FNNBOA Learning Hub**.
- If you don't see the email, check your **"Spam"** or **"Junk"** folder.
- June 23 the courses will be available to you. If you have not received username and password by June 23, 2025, please reach out to [clawrens@mnsi.net](mailto:clawrens@mnsi.net)

#### **How to Log in to the Online Course**

**Step 1:** Go to the Learning Hub Website <https://fnlearninghub.ca/>

**Step 2:** Log In to Your Account

Find the Login button (top right corner).

Enter your username and password (from your email).

### Step 3: Scroll down and find Your Courses

- a. Click on **BC200** (full online course) *16 hours self-directed. 11 topics to cover.*

#### Section BC200 Technology & Inspections

##### BC200 Technology & Inspections

This course is offered primarily as a self-directed online 16 hours of course content. It contains several periodically scheduled direct (webinar) instruction interactive video conferencing sessions. The primary focus is on construction drawing plan reviews and technical tools and reporting to assist with [building inspections](#).

Teacher: Claude Lawrenson

- b. Click on **MC202** (Additional -4 hours introduction)

##### MC202 NBC House

This course is the Manitoba code version and provides 40 hours of technical content from selected units of study for First Nation Housing related to the NBC (National Building Code of Canada). The course is delivered in an in-class setting. The intended audience includes contractors, housing managers, inspectors, and other interested technical support representatives.

The course content includes study modules that helps participants in finding, understanding, and applying the code requirements for housing. Questions and exercises are also provided to ensure reasonable benchmarks of understanding the technical nature of building code related to house construction. Successful course completion requires a minimum of 70% or better on a final course exam.

An exam is facilitated on the last day of class.

Please complete the up-front prep work prior to the in-class sessions. We have a lot of ground to cover once we get in-class. I'm anticipating a class size of approximately 30 participants.

In-Class you will be set into round table groups and be assigned a group leader. We will work our way through the Workbook Chapters together. I will be presenting a series of PowerPoint slides to accompany the Workbook Chapters.

Looking forward –  
Miigwech/Thank you  
**Claude Lawrenson, FNHP**
